

Policy Studies Journal – Decision on Manuscript ID PSJ-26-RIPr-0365

Dear Dr. Overstreet: Your manuscript has been reviewed. The reviewers recommend major revisions.

Reviewer: 1

Comment 1.1: The theory section should engage with the literature on policy feedback and diffusion.

Comment 1.2: Please report robustness checks with state fixed effects – “naïve” models aren’t enough.

Reviewer: 2

Comment 2.1: The discussion overstates causal claims; soften the language in the conclusion.
